ceuhm3-package

ceuhm3 HapMap phase III genotype calls for CEU subpopulation

Description

ceuhm3 HapMap phase III genotype calls for CEU subpopulation

Details

Package: ceuhm3
Version: 0.0.0
Depends: GGBase
License: Artistic-2.0
LazyLoad: yes
Built: R 2.12.0; ; 2010-07-16 13:28:01 UTC; unix

There are multiple representations of HapMap Phase III genotypes in this package. First, the full data derived from HapMap are provided in `ceuhm3.sms`. Second, the samples for which March 2007 expression data was provided by Wellcome Trust GENEVAR project are coupled in the `hm3ceuSMS` data set. Finally genomic coordinates for all referenced SNP are in `hm3ceuLocs`.
