

Package ‘assorthead’

November 7, 2025

Version 1.5.1

Date 2025-10-30

Title Assorted Header-Only C++ Libraries

Description Vendors an assortment of useful header-only C++ libraries.

Bioconductor packages can use these libraries in their own C++ code by LinkingTo this package without introducing any additional dependencies.

The use of a central repository avoids duplicate vendoring of libraries across multiple R packages, and enables better coordination of version updates across cohorts of interdependent C++ libraries.
